

Rabah Plastics Company has a multi-production line operational company for the production of plastic bags. We strive to produce high-quality bags with different sizes. We also conduct in-house printing for our products and have recently added a new high-quality printing machinery for a better image quality on our final bag products for our customers.

### **Our finished products include:**

- Shopping plastic bags
- Garbage plastic bags
- Food packing plastic bags
- Automated packing rolls
- Four color printing on plastic bags
- Six color printing (high-quality) with color blending for picture quality printing on bags
